

DIGGS to RSLog Fields

RSLog Setting	DIGGS Code List
Testhole Progress Status	Ask DIGGS team
QM Roles	The following list goes beyond our QM roles but worths a discussion internally https://diggsml.org/def/codes/DIGGS/0.1/roles.xml
QM Statuses	Nothing available in DIGGS
Rock Types	Ask DIGGS team
Rock Slaking	
Rock Hardness	
Rock Grain Size	
Rock Bedding Spacing	
Rock Fracture Density	
Rock Healing	
Rock Weathering	
Rock Alteration	
Rock Strength	
Rock Defects	
Soil Proportion	https://diggsml.org/def/codes/DIGGS/0.1/abundance.xml Use ASTM abundance code only. https://diggsml.org/def/codes/DIGGS/0.1/abundanceUSDA.xml
Soil Classifications	https://diggsml.org/def/codes/DIGGS/0.1/USCSSoilComponents.xml https://diggsml.org/def/codes/DIGGS/0.1/aashtoM145.xml https://diggsml.org/def/codes/DIGGS/0.1/astm2488Brdr.xml https://diggsml.org/def/codes/DIGGS/0.1/astmD2487.xml https://diggsml.org/def/codes/DIGGS/0.1/astmD2488.xml https://diggsml.org/def/codes/DIGGS/0.1/astmD5715.xml https://diggsml.org/def/codes/DIGGS/0.1/usda.xml
Soil Particle Size	Ask DIGGS team
Soil Particle Angularity	
Soil Particle Shape	
Soil Plasticity	
Soil Dry Strength	
Soil Dilatancy	
Soil Toughness	
Soil Structure	
Soil Cementation	
Sampling and Boring: <i>Sample Types</i>	@Josh where is DIGGS list for sampling method
Sampling and Boring: <i>Location Status</i>	https://diggsml.org/def/codes/DIGGS/0.1/progressState.xml @Josh please update RSLog list from this DIGGS list
Sampling and Boring: <i>Moisture Descriptors</i>	Ask DIGGS team
Sampling and Boring: <i>Boring Methods</i>	https://diggsml.org/def/codes/DIGGS/0.1/boreholeType.xml @Josh please update RSLog list from this DIGGS list
Field Tests: <i>Consistency/Apparent Density</i>	Ask DIGGS team

RSLog Setting	DIGGS Code List
Instrumentation: <i>Borehole Survey</i>	Ask DIGGS team: do we have a list of instrumentations / surveys? @Josh please search for “inclinometer” or “wireline” in DIGGS and you may find it (?)
Instrumentation: <i>Piezometer Types</i>	@Josh please search for “Well”
Instrumentation: <i>Plug Types</i>	@Josh please search for “Well”

No existing settings in RSLog for <https://diggsml.org/def/codes/DIGGS/0.1/boreholePurpose.xml>?
Possibly our **Project Components** work item #3252?

As a general data types reference? <https://diggsml.org/def/codes/DIGGS/0.1/measurand.xml>

<https://diggsml.org/def/codes/DIGGS/0.1/soundingPurpose.xml>

@Josh please make sure we add all these sounding methods to RSLog default Field Tests list (check columns, Ask DIGGS team about example files):

<https://github.com/DIGGSml/diggs-examples/tree/master/2.6%20Example%20instances>

- **CPT Sounding:** same as our Cone Penetration Test (don’t add)
 - **Dilatometer:** add
 - **Driven Pile Installation:** N/A
 - **Dynamic Cone Penetrometer:** rename our “Dynamic Cone Penetration Test (DCPT)” to “Dynamic Cone Penetrometer”
 - **Pressuremeter:** rename our “Pressure Meter Test” to “Pressuremeter”
 - **Seismic Cone Penetrometer (SCPT):** add
-

@Josh, please check out geosetta.org tools for (contact Ross if any questions):

- Unit Converter:
- DIGGS validator: there is a github repo for this. We should integrate it with RSLog.
